

WASTE REDUCTION POLICY STATEMENT

Exclusive Collection's Environmental and Sustainability Policy confirms our ethos and commitment to lowering our environmental impact as much as possible in all areas of our business and in our supply chain. As we seek to procure in the most sustainable possible way, it follows that we also strive to reduce our waste production as much as possible.

Our objectives are:

- 🌱 Reduce our waste production annually by 2% from a baseline figure of 39 tonnes per £1m revenue.
- 🌱 Maximise recycling rates.
- 🌱 Reuse materials wherever possible rather than buy replacements ; on our last restaurant refurbishment project furnishings were reupholstered and reused rather than buying replacements.
- 🌱 Products will be reclaimed where possible / practical ; flip flops provided in both spas are collected after use by a charity for redistribution to charitable causes.
- 🌱 Work with waste contractors to maximise the amount of waste which goes towards Refuse Derived Fuel.
- 🌱 Continue to improve efficiency of food waste collection programmes and ensure that all possible food waste is captured accordingly.
- 🌱 Ensure batteries and electrical items are recycled responsibly.
- 🌱 Ensure printed materials are used only where necessary and ensure toner cartridges are recycled with the supplier.
- 🌱 Encourage participation in local schemes to capture non-recyclable goods.
- 🌱 Specifying that suppliers take away bulk packaging and dispose responsibly.
