## MEETINGS GET BETTER WITH THE RIGHT NUTRITION

Healthy food served at carefully chosen times ensures that business meeting participants stay more focused. Fats and sugars play a key role in this. For example, 'fast sugars' provide an energy boost, but are very short lived and are followed by a marked decrease in energy. 'Slow sugars' ensure the balanced uptake and release of energy which keeps you energized.

When it comes to nutrition, Postillion Hotels approaches people at business meetings as professional athletes. We are the first in the Netherlands to introduce the Brainfood concept which enables participants to perform to the best of their abilities!

- Improves concentration
- Is full of healthy nutrients
- Reduces the after meal dip
- Keeps you energized

# BRAINBREAK

Feeling distracted after an hour or two during a meeting? Why is that? Set out two curves in time... 'The concentration curve', which decreases during a meeting. And 'the importance of the agenda items', which remains the same. We call the increasing difference 'the gap'. The larger the gap, the more difficult the process: decision-making takes longer; subjects do not get the attention they deserve; inspiration decreases; distractions become bigger or in the worst case: energie levels diminish.

Conversely, the same thing applies: avoiding 'the gap' eases the process.

*But how do you do that?* We at Postillion invented the following packages:

- Haka Break
- Yoga Break
- Balloon Break
- Shiatsu Break
- Brass Break
