150 rooms & suites

Muted tones fuse with rich fabrics to create an enclave that *instantly invites*. Bespoke carpets feature an ecclesiastical pattern inspired by the Dominican Abbey Order that once resided at this location. Each room welcomes with generous beds decorated with feather pillow and duvets, *soothing Gregorian chants*, and vast bathrooms offering the choice of rain showers or deep baths. Bright loft rooms provide a *bird's eye view* of the city.

A historic identity

The rich history of the location was a source of inspiration in the exclusive design of The Dominican. Home to famous French painter Jacques-Louis David in the 19th Century, his spirit is preserved in the original facade of his abode, which is today seamlessly integrated into the new building that houses the hotel. One of the five suites is named after him, and his paintings are referenced in contemporary design details throughout the hotel.
