( HEALING HOTELS )  
OF THE WORLD

“There is a growing community of unconventional thinkers and spiritual seekers that gather in small communities around the world to embrace creativity, music and the environment”.

“Palmaia was designed to be one of these gathering points, and currently the only resort of its kind. A safe place where we can create positive change within the boundaries of modern society”.

Alexander Ferri - Founder and CEO

We refer to AïA as our  
connection to nature

A double-sided mirror to our true, inner selves. She is  
harmony and disruption, the source, the circle of life,  
the root of meaning and the giver of purpose.

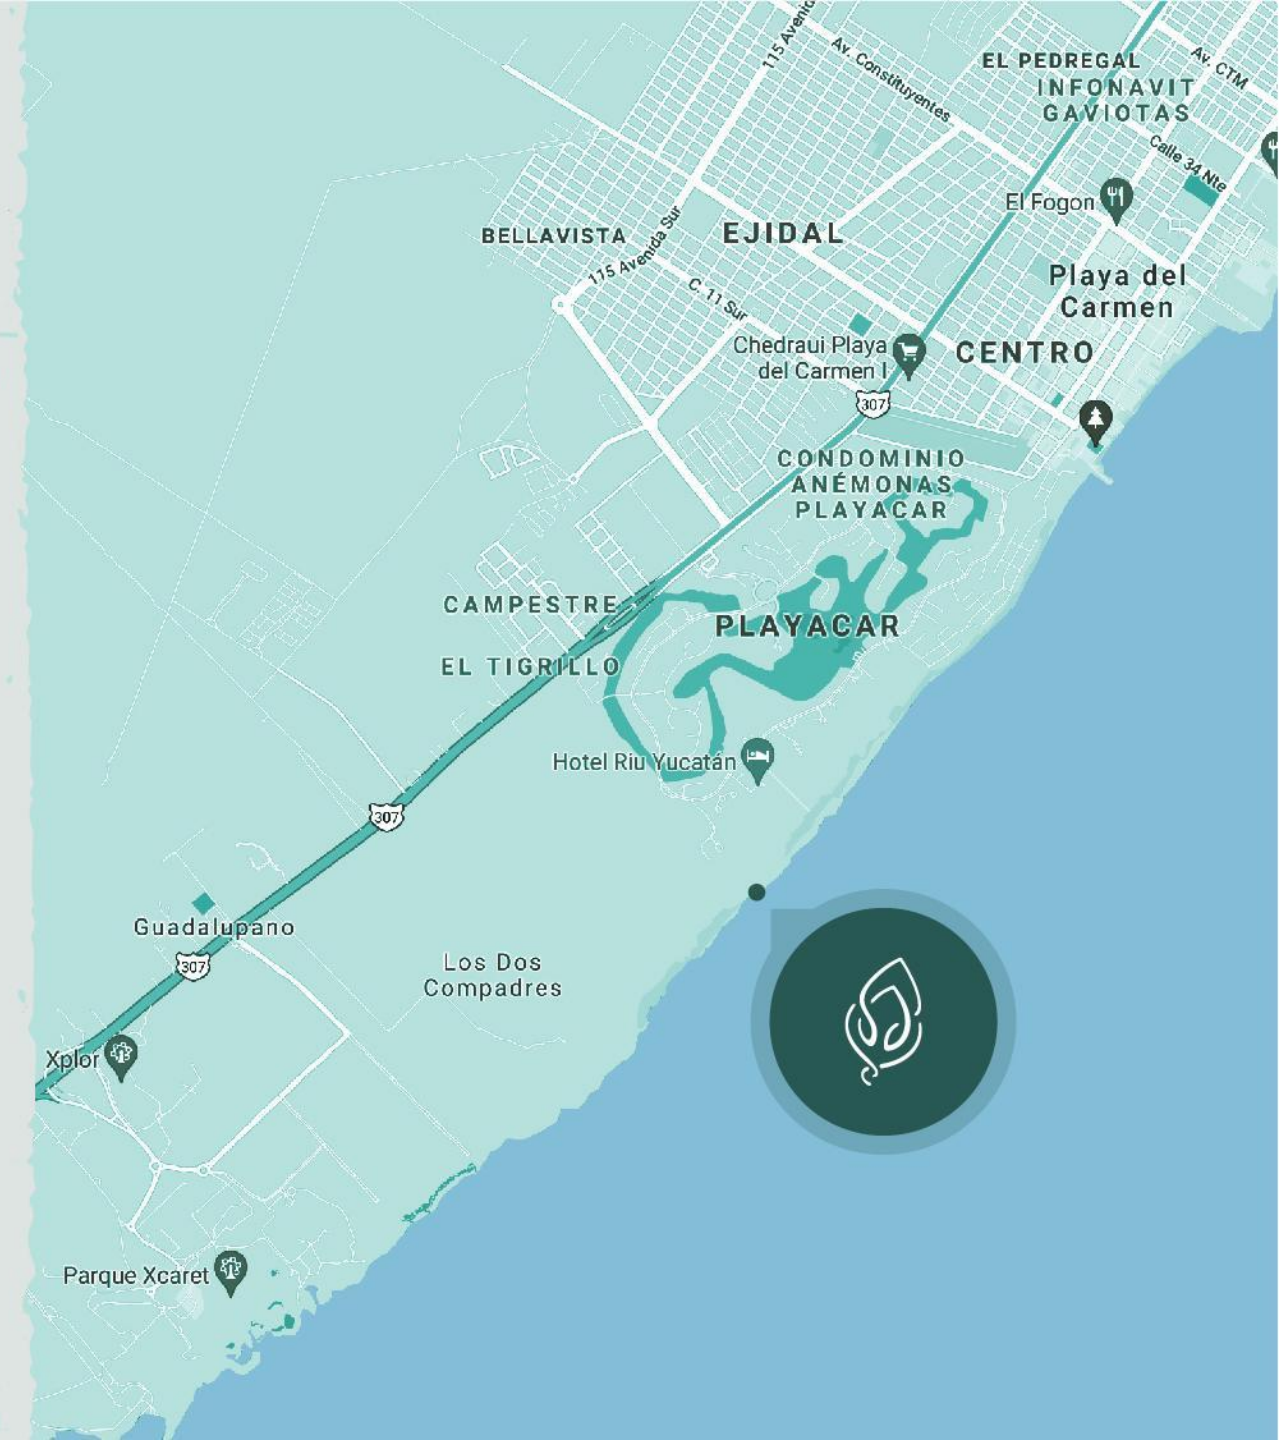

Located between a pristine white sand beach and cool-water cenotes on the cusp of the undisturbed jungle.

A person wearing a traditional, ornate headdress and a white long-sleeved garment sits on a concrete ledge. Next to them, a man in a dark long-sleeved shirt and dark pants sits with his back to the camera, looking out over a vast, turquoise ocean under a soft, hazy sunset sky. Several wooden spears or staffs are lying on the ledge in front of them.

# LEK

Elevating the native Mexican, small town, culinary wisdom to the rarified heights of international, haute cuisine, our top-notch chefs bring a mastery of hyperlocal flavors rivaled only by their artistry of presentation, secretly enhanced by select spices and herbs cultivated in our greenhouse.

# *Mar de Olivo*

To change history you need to understand it. Our chefs have bravely set forth in a new direction that redefines the tired expectations of Mediterranean cuisine by cultivating their lesser-known, all but forgotten traditions. Join an adventure along storied seas, from the Strait of Gibraltar to the Bosphorus, and discover the flavors our ancestors relished as they journeyed from one empire to the next.
