## TECHNICAL INNOVATIONS

The Radisson Blu Hotel Frankfurt works closely with the in-house AV-supplier KFP to offer you the most innovative audiovisual equipment, meeting all your needs. Our latest generation of video-, light-, and conference technology is easy to operate and provides wireless connectivity, enabling interaction between multiple devices.

Technical highlights are the DigiChart and Multipad. The KFP Multipad is a multifunctional Touch-Tablet which can be used for presentations, video-conferences and as a whiteboard. Representing a combination of flipchart and touchpad the DigiChart saves all drawings and ideas gathered during a meeting. This saves all delegates from having to type up notes or make photocopies.

## ROOMS & SUITES

The hotel was designed by the London architect John Seifert and furnished by Adam Tihany, who is regarded as one of the world's most preeminent hospitality designers.

The 414 rooms and 14 suites set new standards in design and comfort thanks to the efforts of Italian star designer Matteo Thun. Experience four different room styles: "At home", "Chic", "Fashion" and "Fresh"; from warm, modern and classic to daring and unconventional.

The panoramic windows provide a spectacular view of the Frankfurt skyline or Taunus mountains making your stay an unforgettable experience. All rooms are equipped with spacious bathrooms, floor heating, individual climate control, flat-panel LCD television, a safe and minibar, as well as other amenities.

The spacious Business Class rooms are located in the rounded sections of the building and offer additional amenities such as a Nespresso® coffee machine, Pay-TV feature films and daily newspaper in the morning.

## RESTAURANTS & BAR

To start the day, the Gaia restaurant serves a Super Breakfast Buffet where guests can choose from a variety of items ranging from healthy and nutritious options to a full English buffet. Pamper your taste buds at noon and in the evening in our à la carte restaurant COAST with international cuisine.
